Career Objective

As a Software Engineering student currently in my 5th semester at FPT University Da Nang, I am looking for opportunities to gain hands-on experience in a real working environment. I hope to learn from professionals, understand how businesses operate, and gradually improve both my technical and soft skills. My goal is to build a solid foundation for future career development and become a reliable contributor to any team I join.

Soft Skills

Communication Skills

Negotiation Skills

Presentation Skills

Hobbies

Listening to music

Education

High School 2021 - 2024

Tran Phu High School, Da Nang

GPA: 8.0

Experience

Restaurant Booking Web

Semester 4 - 2025

FPT University Da Nang

- Designed and developed a basic restaurant booking website from scratch with a focus on usability and browser compatibility.
- Participated in testing and evaluating new features to enhance existing functionality.
- Customized CMS platforms including WordPress, PHP-Fusion, and Concrete5 to meet project requirements.
- Assisted in setting up a simple content management system and delivered training for client usage.
- Explored and applied basic web technologies and improved teamwork skills through code review sessions and group discussions.

BeeTask - Smart Work & Task Management Platform Kỳ 5 - 2025

FPT University Da Nang

- Collaborated with a development team to build a task management app inspired by Trello.
- Contributed to backend logic, data processing, and API integration to support dynamic features.
- Participated in UI/UX improvement discussions and proposed enhancements based on user feedback.
- Worked closely with the Product Team to develop product strategies and improve app quality through iterative development.
